Stainless Steel Slotted Channel 1500 mm – Modular Channel for Efficient Drainage

This 1500 mm stainless steel slotted channel is a compact and robust solution for fast and controlled drainage in professional environments. Thanks to its modular design, the slotted channel can easily be extended with lengths of 500, 1000 or 1500 mm, allowing you to tailor the drainage system to your space. Made of durable 304 stainless steel, it features a sleek, low-maintenance finish – ideal for settings where hygiene and reliability are essential. This model supports loads of up to 700 kg and can be directly connected to a floor drain. Dimensions: 1500x66x97 mm – Flow rate: 90–120 L/min – Weight: 7 kg

Features:

- **Made from 304 stainless steel:** durable, corrosion-resistant, and suitable for heavy use
- **Load capacity up to 700 kg:** suitable for pedestrian and trolley traffic
- **High flow rate:** 90–120 liters per minute for fast drainage
- **Modular design:** easily extendable with 500, 1000, or 1500 mm segments
- **Expandable:** compatible with floor drains 7107.0020 / 7107.0025

Ensure a reliable and expandable drainage system – order your slotted channel today!
