

## SS DROP-IN ICE BIN

€450.00

SKU:

7538.0005

**Discover the convenience of our stainless steel drop-in ice bin!**

This durable ice bin is specifically designed to be built into the bar, offering a practical solution for storing ice. The bin features a removable sliding lid and has rounded corners for easy cleaning. Additionally, the bin is double-walled and has bottom insulation, ensuring efficient insulation and longer cooling times. With dimensions of 380x446x524 mm and a weight of 21 kg, the bin is compact yet offers ample capacity.

### Key features:

- **Suitable for built-in bar installation:** save space and create a streamlined workspace.
- **Removable sliding lid:** for easy access and hygiene.
- **Rounded corners:** ensures quick and efficient cleaning.
- **Double-walled and bottom insulation:** provides excellent insulation and keeps ice frozen longer.
- **Supplied with a drainage connection:** for easy draining of the bin.

An ideal solution for any professional bar that values efficiency and hygiene. Don't wait any longer—order your stainless steel drop-in ice bin today!
